

PRESS RELEASE

For Immediate Release

RevoZport launches in Europe from its new North West London headquarters

Following on from its huge success in the US and across the world, RevoZport has launched itself upon the European market with the promise of increasing brand awareness and sales in the ever increasing vehicle tuning and aerokit market.

Promising a speedier and more focused service for its European customers RevoZport have moved in to a state of the art showroom in North West London where it will be displaying a range of its exclusive products for new and existing customers to view and benefit from a more personal, one to one service.

Having already seen sales triple over the past two years for its unique and trend setting Mercedes, BMW and Ferrari styling packages, RevoZport is determined to corner the UK and European market and are seen as potential greats in the automotive industries quickest growing sector.

To celebrate the opening of this exclusive establishment, RevoZport Europe Ltd will be launching 2 celebration products which will be in partnership with Jonathan Cocker, the youngest ever British GT Champion, are developing a premium quality JCR Aero kit for the Nissan R35 GTR and Tang Chi Lun the famous Red Bull funded drifting champion in China with the BMW 1M RAZE GT to be launched in early 2014.

Attached in this release is the teaser design concept of the 1M RAZE GT, similar to the Black Series of the AMG C63 but on a BMW 1M.

This wide body styling aerokit gives extra 30mm width, perfect for those aggressive offset lovers, a big GT wing, a different rear diffuser and a duckbill trunk. This will be a production bodykit for all E82 variants including convertible, the completed car will be raced at the D1 GP in Japan in 2014.
